

It is prepared pursuant to 1907/2006/EC and Regulation on Information Forms on Harmful Substances and Mixtures (R.G. 13.12.2014-29204).

Issue Date:13.02.2017 SDS Code:GM-CX-002

Control Date: 17.06.2020

#### 1 Identification of Material / Mixture and Company / Distributor

#### 1.1. Identification of Material / Mixture

**CERMIJOINT 1-6 MM Trade Name:** 

#### 1.2. Specified or recommended usage of substance/admixture

Plasticised and water repellent cement based grout for all porous or non-porous tiles for joints from 1-mm. It is suitable to use on internal and external walls and floors.

# 1.3. Details of the supplier of the MSDS

**Company name:** Koramic Yapı Kimyasalları

Bozüyük OSB 10.Cad No : 3 Bozüyük/BİLECİK

Tel: +90 228 314 63 00 Fax: +90 228 314 63 05

GBF contact person: yasemin.karel@koramic.com.tr

**1.4. Emergency Telephone:** +90 228 314 63 00(On weekdays, during working hours)

**NATIONAL POISON INFORMATION CENTER: 114** 

#### 2. Hazard Identification

#### 2.1. Classification of the substance or mixture

Skin Irrt. 2 H 315 Causes skin irritation.

Skin Sens.1B H 317 May cause an allergic skin reaction.

Eye Damage 1 H 318 Causes serious eye damage. STOT SE-Category 3 H 335 May cause respiratory irritation.

#### 2.2. Label Elements

**GHS 05** 

Signal Word: Danger

Precaution

It is prepared pursuant to 1907/2006/EC and Regulation on Information Forms on Harmful Substances and Mixtures (R.G. 13.12.2014-29204).

Issue Date:13.02.2017 Control Date:17.06.2020

SDS Code:GM-CX-002

**P 280** Wear protective gloves / protective clothing / eye protection / face protection.

P 261 Avoid breathing dust / fume / gas / mist / vapor / spray.

Intervention

P 302 + P 352 IF ON SKIN: Wash with plenty of soap and water.

P305 + P 351 + P 338 IF IN EYES: Rinse cautiously with water for several minutes. Remove the contact lenses, if present and easy to do. Keep rinsing.

P 310 Call NATIONAL THE NATIONAL POISON ADVISORY CENTER (114) or

physician / nursery.

P 333 + P 313 If skin irritation or rash occurs: Get medical advice / attention.

P 405 Store locked up.

**Dispose** 

P 501 Dispose of contents / container in accordance with local regulations.

#### 2.3. Other Hazards

Portland cement clinker may cause an allergic reaction in some people due to include water soluble Cr (VI) in the dust.

# **3** Information on Composition / Contents

#### 3.1. Materials

Not relevant information.

#### 3.2. Mixtures

| Material          | CAS Number | Concentration (%) | H statements  |
|-------------------|------------|-------------------|---|

#### 4 First Aid Measures

### 4.1. Identification of First Aid Measures:

General information: Remove your contaminated clothes and wash them before reusing.

**After breathing:** Take out the victim to fresh air and hold it in a comfortable position for easy breathing. If coughing and other symptoms increase, consult medical attention. Long-lasting respirable crystallized silica may induce the formation of silicosis disease when exposed to exposure values exceeding the limits allowed.

**After skin contact:** Wash with cold water and soap with neutral pH or a mild detergent. Request medical treatment when exposed to wet cement, cement mixes, fresh cement products, liquid or dry cement for a long time. If skin irritation is concerned: Medical assistance / intervention is required.

**After eye contact:** Continue to rinse for at least 15 minutes with eyelids open to remove all particles. Wash eyes thoroughly with water. Remove the contact lenses, if easy to remove and available. Keep rinsing. If eye irritation persists: Medical assistance / care is required.

If swallowing: Do not make the exposed person vomit. If he/she is conscious, make

It is prepared pursuant to 1907/2006/EC and Regulation on Information Forms on Harmful Substances and Mixtures (R.G. 13.12.2014-29204).

Issue Date:13.02.2017
SDS Code:GM-CX-002

Control Date: 17.06.2020

him/her drink plenty of water and call a doctor immediately. If the symptoms continue, call a doctor.

First-Aid self-protection: Protect your skin and eyes.

#### 4.2 Most important symptoms and effects, both acute and delayed

It can cause irritation in the eyes and skin.

### 4.3. Indication of any immediate medical attention and special treatment needed

Treated symptomatically.

# **5** Fire Fighting Measures

### 5.1. Extinguishing media:

Suitable extinguishing media : Water, CO<sub>2</sub>, KKT, Sand, Chemical Foam Extinguisher

#### **Unsuitable extinguishing media**: Intensive water currents

# 5.2. Special hazards arising from the substance or mixture

The decomposition of silicon dioxide (SiO<sub>2</sub>) can produce toxic fumes of metal oxides. It may emit toxic and corrosive fumes.

#### 5.3. Advice for firefighters

Use protective equipment commonly used in the event of a fire (protective gloves / protective clothing / eye protection / face protection materials, etc.).

#### 6 Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Provide adequate ventilation.

Avoid actions that will cause dust to form.

Avoid breathing dust and contacting with skin. Use personal protective equipment.

#### **6.2.** Environmental precautions

Avoid mixing with drainage systems, soil or water.

Notify the competent authorities in case of water or sewerage pollution.

#### 6.3. Methods and materials for containment and cleaning

Collect the dry material mechanically and store in a suitable (vacuum) container.

Prevent dust formation.

If the spreading product is wet, wait until it freezes.

Avoid breathing dust and contacting with skin. Keep children away during cleaning.

It is prepared pursuant to 1907/2006/EC and Regulation on Information Forms on Harmful Substances and Mixtures (R.G. 13.12.2014-29204).

Issue Date:13.02.2017
SDS Code:GM-CX-002

Control Date: 17.06.2020

Use personal protective equipment.

#### 6.4 References to other sections

Section to be reviewed: 13

# 7 Handling and Storage

### 7.1. Precautions for safe handling

Make sure that the necessary ventilation is done. If ventilation is inadequate, use respiratory protection. Avoid contact with skin, eyes or clothing. Use protective gloves / protective clothing / eye protection / face protective materials. Since the bags are heavy, it can cause a variety of physical aches during back and forth movement (back, waist, spine, arms and legs pain and irritation). Do not eat, drink, do not smoke while using the product.

### 7.2. Conditions for safe storage, including any incompatibilities

Keep in a dry, cool, well-ventilated place.

**Storage:** 

Storage temperature :Environmental

Storage life : Stable under normal conditions. Incompatible materials : Strong acids, acid chlorides, acid

anhydrides, chloroformates should be avoided. Avoid contact with aluminum,

copper and their alloys.

7.3. Specific final uses: Not specified.

# 8 Exposure controls / personal protection

# 8.1. Control parameters

#### 8.1.1. Occupational Exposure Limits

| Calcium Sulphate  | 13397-24-5 | -                                    | 15                                     | ACGIH  |
| (Gypsum)          |            |                                      |  | OSHA   |

It is prepared pursuant to 1907/2006/EC and Regulation on Information Forms on Harmful Substances and Mixtures (R.G. 13.12.2014-29204).

Issue Date:13.02.2017 Control Date:17.06.2020

SDS Code:GM-CX-002

# 8.2. Exposure controls

### 8.2.1. Appropriate engineering controls

Provide aspiration in powder form.

Technical protective measures always take precedence over personal protective equipment.

See Chapter 7.

#### 8.2.2. Personal Protective Equipment

**Ventilation:** Ensure that the area is always well ventilated.

**Protect the respiratory system:** Avoid any action that may cause dust to form in the air. Cement dust may cause inflammation on the outer surfaces of the tissues inside the nose. Use CE certified respirators / masks.

**Protection of skin:** The product can cause allergic dermatitis in people with high sensitivity. (The product can contain a +6 valent chromium salt and its compounds or some toxic or dangerous chemical forms of other metals in the amount of cement work in its composition (less than 0,05%).) To protect the skin from prolonged contact, use gloves which are not permeable, resistant to abrasion and alkali reactions.

Eye protection: Use goggles to protect the product from dusting or splashing with water.

### 9 Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

**Appearance:** Dust can be in various colors depending on the product's characteristics.

Odor: Odorless Physical status: Solid

**Vapor pressure**: Not applicable. **Relative Density**: 1.100-1.700 kg / m<sup>3</sup>

PH: approx. 12 (at 20 ° C) in mortar form

**Boiling point:** Not applicable. **Melting point:** Not applicable. **Solubility in water:** <50 gr / 1000 cm<sup>3</sup>

#### 10 Stability and Reaction

10.1. Reactivity: No data available.

- **10.2.** Chemical stability: It is stable under normal conditions.
- **10.3. Possibility of hazardous reactions:** No dangerous reaction is known under normal conditions of use.
- **10.4. Conditions to avoid:** Avoid contact with humidity.
- 10.5 Incompatible materials: Aluminum dusts and other alkaline and alkaline earth elements, Acids, ammonium salts and aluminum metal.

# 10.6. Hazardous decomposition products:

Aluminum dust reacts with alkali and other alkali metals, causing hydrogen gas to emit.

It is prepared pursuant to 1907/2006/EC and Regulation on Information Forms on Harmful Substances and Mixtures (R.G. 13.12.2014-29204).

Issue Date:13.02.2017
SDS Code:GM-CX-002

Control Date: 17.06.2020

It can react with acids using oxygen (O<sub>2</sub>) and releasing carbon dioxide (CO<sub>2</sub>), which can create a danger of suffocation.

### 11 Toxicological Information

The information given is based on the data on components and on similar toxicological products.

### 11.1 Information on toxicological ethics

Total dust does not contain asbestos and contains less than 1% silica (10mg / m<sup>3</sup>)

OSHA PEL (Transition): Total Dust - 50 million particles / ft<sup>3</sup>

OSHA PEL (Result): Total Dust - 10 mg / m<sup>3</sup>

Respirable dust - 5 mg / m<sup>3</sup>

# 11.2 Acute toxicity

Portland Cement (CAS:65997-15-1)

LD50: No data

IDLHs:  $5000 \text{ mg/m}^3$ 

Limestone (CAS:65997-15-1)

Oral (rat) LD50: 6450 mg/kg

### 11.3 Abrasion and irritation effect (Corrosivity and irritation)

### Portland Cement (CAS:65997-15-1)

It is irritant on the membranes of the skin and mucosa.

Serious irritant in eyes.

#### Limestone (CAS:65997-15-1)

Skin (rabbit): 500 mg / 24 hours - Intermediate level

Eye (rabbit): 0.75 mg / 24 hours -

11.4 Skin corrosion / irritation and eye damage / irritation:

It is prepared pursuant to 1907/2006/EC and Regulation on Information Forms on Harmful Substances and Mixtures (R.G. 13.12.2014-29204).

Issue Date:13.02.2017 SDS Code:GM-CX-002 Control Date: 17.06.2020

Causes skin irritation.

It causes allergic skin reactions. Causes serious eye damage.

# 11.5 CMR effects (Carcinogenicity):

The product contains high Portland cement.

Portland cement and other components aren't listed as carcinogens by NTP, OSHA or IARC. However, substances listed by these organizations as carcinogens may contain trace amounts.

#### 11.6 CMR effects (Mutagenicity and Toxicity for Reproduction):

The reason for the lack of classification: Definite but not enough for classification.

### 11.7 Other Toxicological Effects:

Allergic Effects No data

Sensitiveness Sensitivity is not expected when used in the shelf life.

Developmental toxicity
(Teratogenicity)
No
Fertility
No
Toxicokinetics
No
No data

11.8 STOT- Single / repeated exposures

STOT-single exposure Eyes, skin, respiratory system STOT-repeated exposure Eyes, skin, respiratory system

### 11.9 Symptoms related to physical, chemical and toxicological properties:

In case of respiration If small amounts of dust are not harmful but are consumed in large quantities.

adverse effects are possible.

In case of skin contact Irritating to skin. Mortar and skin contact should be minimized. The

product with its dry state may cause more serious skin effects such as thickening and crackling of the skin. Prolonged exposure (alkaline) can

cause serious skin damage in the form of chemical burns.

In case of eye contact Risk of serious damage to eyes. Exposure to dust in the air can cause

immediate or delayed irritation or inflammation. In high quantities, eye contact with dry powder or wet product may cause eye irritation, chemical

burns or effects ranging from blindness.

In case of swallowing If swallowed, it may cause disease. Portland cement may contain trace

amounts of free crystalline silica. Prolonged exposure to respirable free silica can cause other lung conditions to aggravate and lead to silicosis, disability and fatal lung disease. Exposure to Portland cement can cause nasal, throat and upper respiratory system irritated by moist mucous

membranes.

It is prepared pursuant to 1907/2006/EC and Regulation on Information Forms on Harmful Substances and Mixtures (R.G. 13.12.2014-29204).

Control Date: 17.06.2020

Issue Date:13.02.2017

SDS Code:GM-CX-002

#### 11. 10 Additional Toxicological Information:

Toxicological classifications are based on existing knowledge and information. Specific health effects are considered by considering information in section 3.

### 15 Regulatory information

## 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

This safety data sheet has been prepared / approved by accredited and authorized personnel in accordance with the requirements of the Regulation on Safety Data Sheets on Hazardous Substances and Mixtures (13/12 / 2014-29204). The Regulation on Classification, Labeling and Packing of the Articles and Mixtures dated 11/12/2013 has been taken into consideration in the classification.

#### 16 Other Information

The information contained in this Safety Data Sheet is provided only for the latest information and findings. However, neither do they constitute a warranty nor do they constitute a contractual legal relationship. The information provided is for the safe storage, handling, transport and disposal of the product mentioned in this safety data sheet. This information is not used for other products.
